

Download and install the app

Go to the app store and install "Levinsky Music"

Go to Settings/Wi-Fi
and connect your device to MarcNet

Launch "Levinsky Music"
and allow it to access your location:

Check the configuration

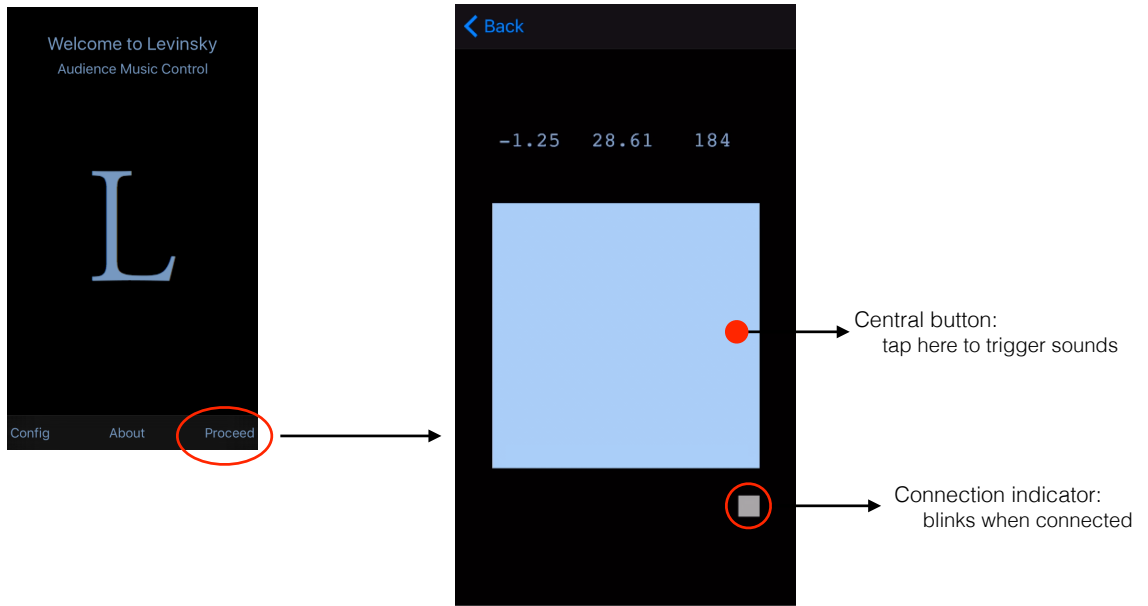

Host: 10.0.1.2
outgoing port: 3000
incoming port: 3001
local IP

Done

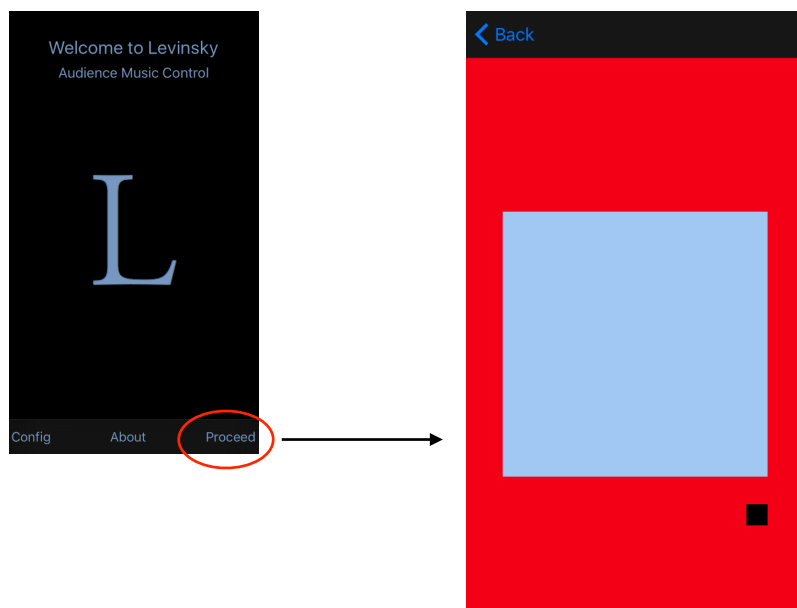

Participate

Walk around the "Centralpoint" and check how that affects the sound you hear

When your device vibrates and/or the color in the background changes, you are 'in control': how does that affect the sound you hear?
